SUMMARY OF SKILLS

Archaeozoology

- Perfect command of archaeozoological techniques and realisation of cutting up works.
- Determination of various faunal remains: terrestrial Mammals (macro and microfauna), marine Mammals, Birds and Shells. Recognition of Fish, Reptiles and Amphibian remains.
- Management of osteological collections.

Archaeology

- Excavation work.
- Washing, sorting, marking of material.

Computing

- Perfect command of the software Microsoft Office (Excel, Word, Access, PowerPoint) and Adobe (Photoshop, Illustrator).
- Creation of relational databases.
- Creation and management of web pages: use of the software Dreamweaver, knowledge of HTML language and style sheet CSS, use of publication system SPIP.

Imaging

- Photographs with digital camera.
- Digitalization of faunal remains.

Languages

- French: mother tongue
- Spanish: good knowledge (second mother tongue).
- English: good knowledge.
